To Whom it May Concern,

And All Parties ~~is~~ involved, including Antonio Whitley. (#4687039 - Inmate number)

My name is Mary Whitley (Johnson),
I am the mother of Antonio Whitley.

I want everyone to know that I
need my son. I need him home.

Not because, I am elderly, not
because he's been there a long time,
not because I've lost a son before
and not because I miss him.

It's because of my concern for
his health and well being. I understand
he's been sick multiple times and
is in an environment where this
can continue and put his life in
grave danger. He (Antonio) is not
a danger to society and is not
a flight risk of any kind. Antonio
is greatly missed by myself, his
siblings and his children. He loves
his children more than anything and
they need him as well. He is also

a grandfather.

I am pleading to the Court on behalf of my son Antonio, to release him so he can continue to improve his health, with proper care and surround himself with the love and care he deserves from his family.

I have no doubt in my mind that my son, Antonio, will NEVER return to any facility that requires incarceration because he has been renewed through rehabilitation and will no longer have any dealings that will be illegal.

Allow me to enjoy my son, and for Antonio to enjoy his healthy life, family and children once again.

We all love him and miss him.
Thank you in advance.
